The 'Technology' Team at HCR Law

FIT FOR ADVANCED ENGINEERING IN MANUFACTURE

- Manufacturing, engineering, design, OEM, supply and distribution
- Established, Start-up, Scale-up and Growth
- Intellectual Property
- Emerging Technologies, including AI
- Science and research
- International dimensions – a network with global reach
- IT, Data and Cyber Security
- Regulation

Perspectives

- Resolving incoherence by organisational measures: collaboration and support arrangements
- Building a specialist destination – a geographic brand
- Prioritising the conditions for domestic and inward investment
- Imagining alternatives (diversification)
- Creating a sympathetic risk culture that supports innovation (horizon gazing for solutions)

Investing for a bright future

- Thank you for your support
